Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. This action is in response to Applicant's amendment filed January 3, 2007. Claims 1-18 are pending in the application.

Election/Restrictions

In view of Applicant's amendment to the claims, restriction to one of the following invention is required under 35 U.S.C 121:

- A. Claims 1-14 and 18 are drawn to a process for requesting and transferring metadata information, classified in **class 709, subclass 203**.
- B. Claims 15-17 are drawn to a process for connecting to first and second processes over WAN, classified in **class 709, subclass 217**.

2. Inventions A is related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention A has separate utility such as a process for requesting and transmitting metadata information, classified in a *different Class/Subclass*. Invention B has a separate utility such as a process for connecting to first and second processes over WAN, classified in a *different Class/Subclass*. See MPEP 806.05(d).

3. The inventions are distinct, each from the other because of the following reasons:

Art Unit: 2143

(a) these inventions have acquired a separate status in the art as shown by their difference classifications.

(b) the search required for each Group is different and not co-extensive for examination purposes.

For example, the searches for the two inventions would not be the co-extensive because these Groups would require different searches on PTO's classification class and subclass as following:

The Group A search (claims 1-14 and 18) would require use of search **class 709, subclass 203** (not required for the invention B).

The Group B search (claims 15-17) would require use of search **class 709, subclass 217** (not required for the invention A).

For the reasons above restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 2143

application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17 (h).
